CUSTODIAL FURNITURE
AND EQUIPMENT

WELCOME TO GAME ENGINEERING

GAME has been providing custodial fabrications and steelwork to the prison service since 1999, gaining prison approval through the Ministry of Justice in 2000. Over the years we have developed a wide range of security doors, gates, windows and grilles and are delighted to now add to this, our specialist range of custodial furniture.

As market leaders, we manufacture to our own unique design and specifications at our factory in Lincolnshire. We understand cell furniture must be reliable, cost-effective and most importantly, delivered and installed as quickly as possible.

Our range includes Solid Resin and High Pressure Laminate furniture as well as a selection of sanitary ware, and we provide a complete fitting service.

We are also able to offer a full cell refurbishment service including furniture, sanitary ware, cell doors and windows, lighting and electrics and vinyl or resin flooring.

More details about our furniture range can be found in this brochure, and we are delighted to have created a range of products and solutions for your needs both now and in the future.

All our products are competitively priced so call us today for a quote and to discuss how we can help you.

SOLID RESIN FURNITURE

From our experience as the leading supplier of security metal work to the prison service, we also understand cell furniture must be reliable, cost-effective and most importantly delivered and installed as quickly as possible.

Solid resin furniture is ideal for cells where a robust solution is required

Our solid resin furniture offers the following benefits:

- Fast delivery times - 5 weeks as standard, although vandalised items can be replaced within 2 weeks, so cells are not out of action for long
- Extra strength - all items have a steel sub structure
- Available in white as standard, but others colours can be made to order
- Available as beds, desks, lockers and modesty screens

GAME Engineering replaced cell furniture that had been vandalized. They were very efficient and completed an excellent job in super quick time. We'll definitely be using them when we need more cell furniture in the future.

Plinth Bed • GSEC-FUR-010

HEIGHT	WIDTH	DEPTH
175mm	2000mm	700mm

Plinth bed is ideal for police cells or in a segregation unit

HIGH PRESSURE LAMINATE (HPL) FURNITURE

Our range of High Pressure Laminate furniture, often referred to as Trespa, is ideal when establishments are looking for a robust long term option to their general cell furniture. All furniture in the range is extremely durable, vandal & graffiti resistant, low maintenance and very easy to clean.

*We can also provide
a full layout
design service if
required*

A number of our recess areas needed updating and we approached GAME who designed the layouts, fitted new resin floors. White rock lined the walls and fitted new sanitary ware. An excellent job.

SANITARY WARE AND WASHROOMS

WE CAN PROVIDE THE BEST SOLUTION TO YOUR SANITARY WARE AND WASHROOM NEEDS.

As well as offering the complete range of environmentally secure and ligature resistant custodial sanitary ware, we can also provide a full design and fitting service.

This includes the supply and fit of resin floors and white rock walls.

A number of our recess areas needed updating and we approached GAME who designed the layouts, fitted new resin floors. White rock lined the walls and fitted new sanitary ware. An excellent job.
