

INTRODUCING T-BOD RAPID CUSTODIAL SOLUTIONS

DESIGNED BY AND EXCLUSIVE TO GAME ENGINEERING. THESE NEW MODULAR, EXTENDABLE, ADAPTABLE SECURE UNITS ARE MADE TO SUIT YOUR NEEDS AND SPACE – AND EASE ANY CAPACITY PRESSURES YOU MAY HAVE.

As well as our extensive experience and expertise in prison approved security, we have created a methodology to make custodial accommodation in modular form - and we've won an award for it too! Our modular units can be largely constructed at our factory and delivered and installed at your premises, either in the UK or overseas. We can make any type of building you may need including cells, classrooms, kitchens and offices.

A GREAT SOLUTION TO EASE CAPACITY ISSUES

We have the in-house capabilities to provide design services ranging from one-off pieces to complete new builds. Combining this with our decades of experience of the security industry and our expert installation teams, means you have peace of mind your project will be delivered on time and in budget.

Here's some examples of the type of layouts we could create and build for you:

- Cells
- Gym
- Hospital
- C&R Stairs

EXAMPLE CROSS SECTION AND OVERHEAD VIEW OF CELLS, GYM, HOSPITAL AND C&R STAIRS

- Cells
- Classrooms
- Kitchens
- Offices

EXAMPLE CROSS SECTION AND OVERHEAD VIEW OF CELLS, CLASSROOMS, KITCHEN AND OFFICES

We have already completed a project for the Falkland Island Government and here's some images showing the project's progress. From the steel frame being made in our factory to the final fixtures and fittings on the finished product.

1. From a simple steel frame made in our factory...

2. Secure metalwork items starting to be installed

3. Mezzanine floor support steel work in situ

4. Roof panels coming together

5. Fire escape staircase installed

Well done Stuart. I am glad you were able to install how I initially visualised the scheme when we first started the journey. It is great to have found an agile and flexible firm willing to take the risks associated with this job, overcoming considerable politics, difficult logistics and of course the weather!

Ghandi Suppiah,
Head of Design and
Engineering
for the Falklands Island
Government.

6. Spiral staircase being craned into position

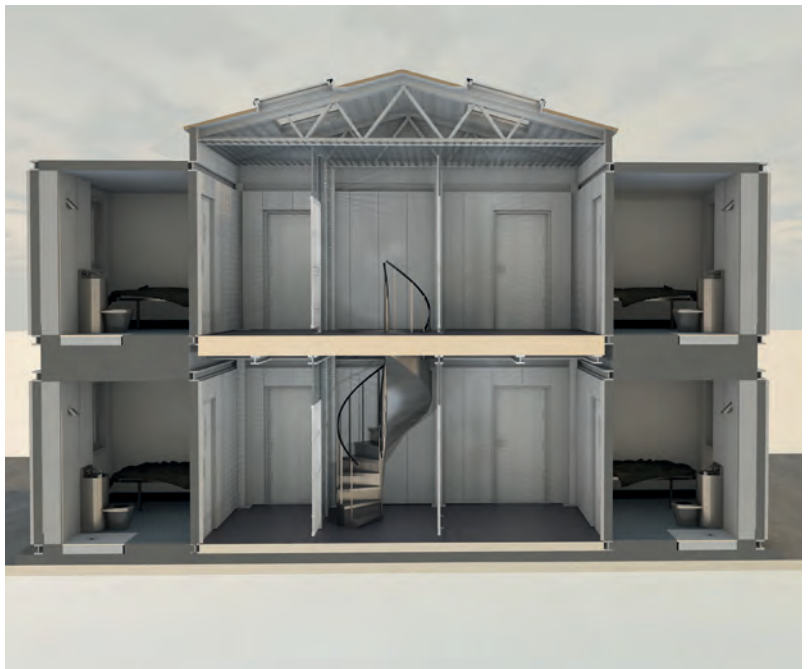

7. Completed units being craned into position

- Completely versatile - we can create just one cell or hundreds
- Ideal for use in the UK as well as overseas
- Rapid deployment
- Award winning design

GAME Engineering is the market leader in providing security doors, gates, windows, grilles and custom products to the Prison Service. Our decades of experience can be seen in the strength of our products and systems. We pride ourselves on honesty, reliability and trust which has helped us to build the strong reputation we have today.

AT GAME ENGINEERING WE CAN OFFER YOU:

- A high level of security – we are an approved supplier to NOMS.
- Professional and reliable staff – enhanced and CTC cleared engineers.
- Personalised and bespoke service – our specialist engineers can recommend the best solution for your needs.
- A dedicated project engineer to ensure your project is completed on time and within budget.
- Full accreditation by leading organisations to give you peace of mind.
